revolutionises stone processing

retains the stone's natural
appearance and colour

we do in seconds
what takes centuries in nature

- suitable for all types of stone
- rough surface without stressing the stone
- enables the processing of other thin products
- enables a similar appearance across several product groups
 - slabs, kerb stones, facade stones
- eco-friendly
 - low energy consumption
 - no worn tools
 - low wastage rate
 - excellent decorative stones are created as a side product
- automatic surface treatment line
 - cost-efficient
 - fast
 - dust-free
 - saves heavy manual labour
